Testing	Chai, Mocha, Sinon, WebdriverIO, Robotium
DBMS	H2, Oracle, HSQLDB, SQLite
Tools	Git, SourceTree, JIRA, Rally, Postman
IDE's	IntelliJ, Android Studio, Visual Studio, Visual Studio Code, Eclipse

INDUSTRY EXPERIENCE

Co-op Software Developer (Co-op Work Term 2) 09/2017 – Present
D2L

- Define and implement user stories to deliver key features such as viewing children's grades for Brightspace for Parents, a web app aimed at improving student outcomes
- Resolve reported defects at a fast pace to ensure a pleasant experience for all users
- Develop a Polymer front-end that is responsive and accessible
- Modify Hypermedia API's in C# to retrieve students' data from the connected Learning Management System
- Provide code review and testing for team members' pull requests based on definition of done to ensure that code is clear and doesn't introduce any bugs

Junior Developer/Analyst (Co-op Work Term 1) 01/2017 – 04/2017
Small Systems Team, Agriculture and Agri-Food Canada

- Developed single-page web apps that will upgrade the way AAFC staff does digital signatures and tracks farmers' appeals
- Built a Grails back-end that makes the apps secure and efficient
- Implemented new features to improve user experience, such as using Docxtemplater for Word docs templating and exporting reports with JasperReports and iReport
- Created automated UI tests using Selenium and WebdriverIO to find and resolve bugs

PERSONAL PROJECTS

Ruin Your Life Alarm (MLH Local Hack Day 2017 Project) 12/2017 – Present

- Android app that improves users' efficiency by giving them extra motivation to wake up

University of Manitoba Women in Computer Science website 09/2017 – Present

- Design and develop a website with the rest of the WICS student group to provide resources and events to support women in tech at the U of M, using tools such as Jekyll, Flexbox and parallax scrolling

Entertainment Tracker 05/2017 – Present

- Provide users the convenience of having the tracking of their progress in books, TV shows etc. all in one web app, which involved designing and setting up an H2 database

PROGRAMMING CONTESTS

Participant, LeetCode Contests

4th place, Manitoba Programming Contest 2017

4th place, Regional Team Contest 2017

Participant, Google Code Jam 2017

11th place, Manitoba Programming Contest 2015
